

Pipe clip (Pipe strap)

Pipe clip (Pipe strap) is a pipe attachment used to hold the pipe directly to a structure. It is one-piece and nonadjustable, whose body embraces a pipe and the both ends attach to a building structure.

- Certificate: UL Listed / FM Approved
- Standard: UL 203, MSS SP-58/69 (Type-26)
- Material: Carbon steel
- Surface: Plain / electro-galvanized / hot dip galvanized
- Application: Non-insulated stationary pipeline
