

Fixed fire hose reel (Manual)

Fixed fire hose reel is normally installed in a building for the occupants to extinguish a small fire. It could not swing. For manual type, it is controlled by an external manual valve to release water into the hose.

- Certificate: LPCB Approved
- Standard: BS EN 671-1
- W. pressure: 12 bar
- Test / burst: 18 bar / 30 bar
- Hose color: Red or black
- Surface: Red powder coating (RAL 3000)

Main parts and material

Semi-rigid hose	PVC tubing as EN 694	Shut-off nozzle	Nylon or brass, rotary operated jet / spray
Reel	Carbon steel or SS to two side plates (disc), brass waterway	Inlet stop valve 1" brass	Standard: Ball valve, lever operated; Optional: Gate valve, handwheel or lockshield
