

# Self-inducting air-aspirating foam branchpipe

Self-inducting air-aspirating foam branchpipe is an air-aspirating foam making device to produce foam and throw at a certain distance. It is handheld, with a self-inducting foam inlet connection and pick-up tube.

- Certificate: ISO
- Standard: Refer to NFPA 11, UL 162, GB 50151
- Connection: BS336, Storz, NH, etc.
- Feature: Air-aspirating straight jet, expansion ratio  $\geq 5:1$
- W. pressure: 200 psi
- Surface: Hard anodized, red FBE coating, etc.

## Main parts and material

<b>Body</b>	Aluminum alloy, with rubber bumper	<b>Handle</b>	Rubber, pistol grip with push-pull ball shutoff, or bale type
<b>Foam concentrate inlet</b>	Quick connection	<b>Pick-up tube</b>	Wire braided PVC flexible tube with SS dip tube (Piercer)

## Available size (Source 1 with ISO)

Flow (gpm)	Inlet pressure (psi)	Material	Inlet	Proportioning	Handle	Ref. No.
60	100	AL	1-1/2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2101 (ISO)
60	100	AL	2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2102 (ISO)
60	100	AL	2-1/2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2103 (ISO)
125	100	AL	1-1/2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2104 (ISO)
125	100	AL	2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2105 (ISO)
125	100	AL	2-1/2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2106 (ISO)
250	100	AL	1-1/2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2107 (ISO)
250	100	AL	2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2108 (ISO)
250	100	AL	2-1/2" BS336 / Storz / NH	0.5% ~ 6%	Pistol grip + shutoff	B2109 (ISO)
