

## Pipe diameter tape

Pipe diameter tape is designed to measure the outside diameter of steel pipe and the depth of a groove in a simple, easy and accurate way. It is necessary for pipe installation, used only as an aid for checking pipe and groove diameter.

### Available size

Pipe OD		Groove diameter (mm)		Max flaring diameter	Ref. No.
NPS	(mm)	Max	Min	(mm)	
3/4" ~ 24"	26.9 ~ 630	23.8 ~ 621.3	23.4 ~ 620.4	29.2 ~ 635.0	P3901

**Note:** For pipe NPS 24", this pipe diameter tape can measure up to pipe OD 630mm, not 610mm of ASME B36.10M.
