

Lateral telescoping brace assembly

Lateral telescoping brace assembly is designed to help simplify installation of fire sprinkler piping for seismic or other catastrophic applications. It is used for lateral sway brace applications only.

- Certificate: UL Listed / FM Approved
- Standard: UL 203A, refer to NFPA 13 seismic sway bracing
- Material: Carbon steel
- Surface: Electro-galvanized
- Application: Telescoping brace member for both steel pipe and CPVC pipe

Available size

Sprinkler pipe to be braced		Orientation	Brace Length (L)		Hole size (HS)		Ref. No.
NPS	DN		Feet	mm	Inch	mm	
1" ~ 4"	25 ~ 100	Lateral	1.0' ~ 1.5'	300 ~ 460	1/2"	13	P6701
1" ~ 4"	25 ~ 100	Lateral	1.5' ~ 3.0'	460 ~ 910	1/2"	13	P6702
