

# Conduit bender

- Certificate: ISO
- Standard: Refer to UL 797, UL 1242, UL 6, NFPA 70
- Material: Aluminum / ductile iron head + steel handle
- Feature: High contrast symbols help operator to make accurate and easy bend, 30°, 45°, 90°
- Surface: Anodized + red painted handle, etc.
- Application: Manually bend EMT / RMC / IMC to specific angle

## Available size

| Trade size | Metric designator | Material                | Usage           | Handle       | Ref. No.    |
|------------|-------------------|-------------------------|-----------------|--------------|-------------|
| 1/2"       | 16                | Aluminum / ductile iron | EMT / RMC / IMC | With, or not | C8001 (ISO) |
| 3/4"       | 21                | Aluminum / ductile iron | EMT / RMC / IMC | With, or not | C8002 (ISO) |
| 1"         | 27                | Aluminum / ductile iron | EMT / RMC / IMC | With, or not | C8003 (ISO) |
| 1-1/4"     | 35                | Ductile iron            | EMT             | With, or not | C8004 (ISO) |
